Maximizing Relevancy of Materials Learned

SLK realizes that members of the business community have specific needs when learning English. Our classes take into consideration the industries that the students work in, to maximize the relevancy of the material learned. Furthermore, we make every effort to develop a curriculum that covers a broad range of skills that can be used, not only in the business environment, but in the English-speaking community at large.

A minimum of two students is required for classes to begin. Please inquire about class times and schedules.
